ZONE
SAN LM-TECH**

CUSTOMER ZONE

The SAN LM-Tech customer zone is an online portal created for online and paperless submission of diagnostic requests of your food, feed, and water samples. This way, you have access to the findings in real time – regardless if you use our platform on your desktop or your smartphone.

This way, you have access to the findings in real time – regardless if you use our platform on your desktop or your smartphone.

HOW WE MAKE YOUR WORK EASIER

- **paperless diagnostic request of samples** via our customer zone input screen
- **interfaces** for diagnostic requests **from your data systems**
- **export** of the test results via defined interfaces back into your databases
- **graphic illustration** of analysis findings according to your requirements (e.g., trend analyses)
- **customer-specific analyses** in consideration of threshold values and reference points
- **specified illustrations** for fast recognition of critical findings
- trend analyses and monitoring **individually adjustable** for the support of risk monitoring, amongst other things
- specific **search and filtering possibilities** of all product-specific data and results
- **various export formats** (Excel, CSV, PDF, JSON)
- **diagnostics overview and traceability** of the samples
